THE ARMY MEDICAL LIBRARY

7th Street & Independence Avenue, Washington 25, D. C.

1. Anatomy; Histology

Anat. Rec., 1945, 93: (Dec.)

SUNDERLAND, S. The innervation of the flexor digitorum profundus and lumbrical muscles. 317-21.

BUEKER, E.D. Hyperplastic changes in the nervous system of a frog (*Rana*) as associated with multiple functional limbs. 323-9, 2 pl.

HOOVER, C.W. A criterion of luteal activity in the mouse. 333-44, 2 pl.

SHADLE, A.R., BOLTON, W. [et al.] The extrusive growth and attrition of the incisors in *Cynomys L. ludovicianus* (Ord.) 349-53.

JOHNSON, P.L., BUTCHER, E.O., & NEVELANDER, G. The distribution of alkaline phosphatase in the cyclic growth of the rat hair follicle. 355-8, pl.

WALDO, C.M., & WIMSATT, W.A. The effect of colchicine on early cleavage of mouse ova. 363-73, pl.

KELLOGG, M. The postnatal development of the oviduct of the rat. 377-97, pl.

DEANE, H.W., & DEMPSEY, E.W. The localization of phosphatases in the Golgi region of intestinal and other epithelial cells. 401-12, 3 pl.

Q. J. Micr. Sc. Lond., 1945, 86: (Dec.)

GOODRICH, E.S. The study of nephridia and genital ducts since 1895. 113-301.

2. Anthropology; Ethnology

Am. Anthropol., 1946, 48: (Jan.-Mar.)

MERRILL, E.D. Further notes on tobacco in New Guinea. 22-30.

HILGER, SISTER M.I. Notes on Cheyenne child life. 60-9.

WHITE, L.A. Kroeber's Configurations of culture growth. 78-93.

3. Biology; Embryology

Rev. brasil. biol., 1945, 5: (Sept.)

BOGLIOLO, L. Contribuição ao conhecimento da morfologia do agente da moléstia de Lutz, em seu ciclo parasitário. 321; passim.

SOARES, B.A.M., & MONTEIRO SORES, H.E. Um novo gênero e dois alótipos de Conyleptidae (Opiliones) 339-43.

SILVA, E.M. da & CRUZ, W.O. Fenômenos regenerativos de plaquetas em trombocitopenias experimentais. 345-60.

VILLELA, G.G., & CURI, A. Dosagem da tirotrina pela hemólise. 361-6.

CRUZ, W.O., SILVA, E.M. da & PIMENTA de MELLO, R. Manifestações purpúricas na pele em cães amediados com benzoato de estradiol. 367-76.

VIANIA DIAS, M. On the cerebral motor cortex of the ant-eater (*Tamandua tetradactyla* L.) preliminary report. 377-82.

PIMENTA DE MELLO, R. Formação de grânulos de Heinz em doente de policitemia vera submetido a tratamento pela acetilfenilhidrazina (pirodina) 387-99.

SOUZA LOPES, H.DE. Sobre a presença, no Rio de Janeiro, de *Parasarcophaga ruficornis* (Fabricius, 1794) espécie oriental e a possibilidade de seu transporte por avião (Diptera, Sarcophagidae) 401-5.

MOUSSATCHÉ, H. Sobre os efeitos da aplicação do cloreto de potássio na corteza cerebral motora dos cães. 407-12.

NORONHA PERES, J., & PENNA SOBRINHO, O. Sobre um novo antígeno de *Eurytoma coelomaticum* para diagnóstico da esquistossomose de Manson. 413-6.

WYGODZINSKY, P. Contribuição ao conhecimento dos Entomophri e Thysanura de Portugal; família Lepismatidae (Thysanura). 419-33.

Rev. canad. biol., 1945, 4: No. 4.

DUBUISSON, M., & JACOB, J. L'electrophorèse des protéines des muscles striés, normaux et fatigués, de la grenouille. 426-51.

BUGNARD, L., MILETSKI, O., & AUVERGNAT, R. Recherches expérimentales sur les transfusions sanguines massives. 452-60.

BAISSET, A., BASTOUIL, R., & GERMAIN, P. Modification du métabolisme basal sous l'influence de l'entraînement physique. 461-76.

TARTE, P. Sur l'adsorption d'acides aminés par le sulfate de baryum. 477-87.

AUBEL, E., & HUGGET, J. Action de l'oxygène sur les anaérobies stricts; consommation d'oxygène par *Clostridium saccharobutylicum*. 488-97.

AUBEL, E., & PERDIGON, E. Action de l'oxygène sur les anaérobies stricts; étude de l'action de l'oxygène sur la production de corps en C² et en C⁴ par *C. saccharobutylicum*. 498-501.

AUBEL, E., ROSENBERG, A., & CHEZELLES, N.de. Action de l'oxygène sur la dégradation et la synthèse des amino-acides par *Clostridium sporogenes*. 502-9.

MINE, E., & PASSOUANT, P. Sur le syndrome neuro-humoral de la myotonie. 510-34.

JENSEN, H., LARIVIERE, M., & ELIE, J.J. The isolation of estrone sulfate from the urine of stallions. 535-7.

DANDURAND, R. Notes préliminaires sur certains résultats obtenus par un traitement nouveau chez quelques diabétiques. 538-40.

4. Cancerology

J. Nat. Cancer Inst., 1945 6: (Dec.)

SPENCER, R.R., & CALMAN, D. Studies in species adaptation; continuous exposure of paramécie to methylcholanthrene and other agents for more than five years. 147-54.

CALMAN, D., & SPENCER, R.R. Studies in species adaptation; continuous and discontinuous exposure of a flat-worm to methylcholanthrene and to phenanthrene. 155.

DANIEL, G.E., SPENCER, R.R., & CALMAN, D. Methylcholanthrene and the environment of Paramécie. 157-60.

DALTON, A.J., JONES, B.F. [et al.] Organ changes in rats exposed repeatedly to lowered oxygen tension with reduced barometric pressure. 161-85.

- SHEDDEN, M.B., & WYMAN, R.S. Effect of adrenalectomy and ovariectomy on mammary carcinogenesis in strain C3H mice. 187-9.
- CHALKLEY, E.W. Quantitative relation between the number of organized centers and tissue volume in regenerating masses of minced body sections of Hydra. 191-5.

9. Cardiovascular System

Cardiologia, Basel, 1945, 9: (No. 3 - 4)

- PIOTTI, A. Die paroxysmale Tachycardie beim Kleinkind; monatlang anhaltende paroxysmale Tachycardie, bedingt durch isolierte interstitielle Myocarditis des rechten Vorhofs. 121-72.
- DELAGHAUX, A., MAMEL, M., & AMON, G. Le coeur dans l'entraînement physique et le surentraînement. 173-210.
- REERSWYGHELS, J. van & THOMAS, J. Variations du glycogène et de l'acide pyruvique du coeur lors des modifications electrocardiographiques observées dans l'avitaminose B chez le rat; rôle de l'acide pyruvique. 211-30.
- SMELY, R.F. QT beim Normalen und bei einigen Krankheiten. 231-40.

10. Chemistry; Physics

Analyst, Lond., 1945, 70: (Dec.)

- THOMPSON, H.W. The use of infra-red spectra for analysis. 443-9.
- GIBSON, G.P., & TAYLOR, R.J. A dynamic method for observing the antimony chloride reaction with vitamin A and related substances. 449-57.
- FRID, G.F.M., HANSON, S.W.F. [et al.] The estimation of sucrose in sugar-dried egg by polarimetric methods. 458-60.
- SCOTT, T.R., & DIXON, P. A colorimetric method for the determination of uranium in leach liquors. 462-5.
- ALBERICI, V.J. Rapid colorimetric estimation of iodine in kelp. 474.
- ALDRIDGE, W.N. The estimation of micro quantities of cyanide and thiocyanate. 474.

Arch. Biochem., 1946, 9: (Jan.)

- GISESE, A.C., & TATUM, E.L. The effects of p-aminobenzoic acid, pantothenic acid and pyridoxin upon respiration of Neurospora. 1-13.
- TATUM, E.L., & GISESE, A.C. Sulfanilamide and respiration of Neurospora. 15-23.
- BLT, A.S., & FRENCH, C.S. The photochemical production of oxygen and hydrogen ion by isolated chloroplasts. 25-43.
- FIELD, H., Jr., FOA, P.P., & FOA, N.L. The urinary excretion of trigonelline- and nicotinic acid-like substances in human subjects after the ingestion of trigonelline and after smoking. 45-9.
- KIDDER, G.W. Studies on the biochemistry of Tetrahymena; folic acid as a growth factor for T. geleii W. 51-5.
- MOLLUNG, J.S., BILLMAN, J.H., & REID, W.B., Jr. Reagents for the detection of hydrogen per-

- oxide production by bacteria in plate cultures (with notes for the preparation of 2,7-diaminofluorene dihydrochloride) 57-62.
- REITHEL, F.J. The fermentation of lactose by an extract of streptococcus thermophilus. 63-7.
- MOSHAN, W.H., ERWAY, W.F., & MEYER, R.K. Succinic dehydrogenase activity of certain endocrine tissues of the rat. 69-74.
- LAUFFER, M.A., & SCOTT, E.M. Thermal destruction of influenza A virus hemagglutinin; the effect of pH. 75-80.
- ERSHOFF, B.H. Dispensability of dietary niacin for reproduction and lactation in the rat. 81-4.
- MILITZER, W.E. Note on the orcinol reagent. 85-90.
- MILITZER, W.E. The Kiliani reaction as a direct measure of reducing groups. 91-4.
- VICKERMAN, J., FLOCKINGER, M.H., & JOHNSTON, R.M. The production of riboflavin by *Aschyta gossypii*. 95-8.
- HUFF, J.W., PEARSON, P.B., & PERLWITZ, W.A. Further studies on the metabolism of nicotinic acid and related compounds in the horse. 99-104.
- SODI PALLARES, E. Note on the poison produced by the Polydum (Fontaria) vicinus, Lin. 105-8.
- KLOTZ, I.K. The application of the law of mass action to binding by proteins; interactions with calcium. 109-17.
- KOENIG, V.L., & HOGNESS, K.R. Electrophoretic analysis of swine plasma and serum. 119-28.
- GREEN, M.E., & SEVAG, M.G. Failure to demonstrate transmethylation of homocysteine by a strain of *E. coli* requiring methionine for growth. 129-32.

Biochem. J., Lond., 1945, 39: No. 4.

- HARRE, M., & HASLEWOOD, G.A.D. The antibacterial activity of simple derivatives of 2-aminophenol. 285-7.
- BELSKOWSKY, P. A metabolite of 2-acetamidofluorene. 287-9.
- KELIN, D., & HARTREE, E.F. Purification and properties of cytochrome c. 289-92.
- KELIN, D., & HARTREE, E.F. Properties of catalysis of coupled oxidation of alcohols. 293-301.
- ELSON, L.A., GOULDEN, F., & WARREN, F.L. The urinary partition of sulphur in rats treated with aromatic hydrocarbons, with special reference to growth retardation. 301-8.
- GLOCK, G.E., THORP, R.H. [et al.] The antibacterial action of 4:6-dimethoxytoluquinone and its fate in the animal body. 308-13.
- COOK, R.P., TULLOCH, W.J. [et al.] The production of penicillin using fractions obtained from aqueous extracts of pea (*Pisum sativum*) 314-7.
- FULTON, J.D., & STEVENS, T.S. The glucose metabolism in vitro of *Trypanosoma rhodesiense*. 317-20.
- HOPKINS, F.G., & MORGAN, E.J. On the distribution of glyoxalase and glutathione. 320-4.
- JONES, J.I.M. The biological assay of vitamin D₂: the effect of the calcium and phosphorus content of the diet. 324-8.
- McILWAIN, H. Biochemical characterization of actions of chemotherapeutic agents: lack of gross displacement of pantothenate and p-aminobenzoate from micro-organisms, by pantoic taurine and sulphanilamide. 329-34.
